

Dear Kerry

I refer to your email inviting comments on documents ABC.19 and ABC.20. ABC.19: Addendum Site Allocations HRA 2018 – 23 July 2019 track changes

We note that the Addendum Site Allocations document has been prepared to provide further clarification in relation to recent changes in guidance, policy, legislation and case law. We welcome the further clarifications.

ABC.20: Allerdale BC Site Allocations HRA – summary response to Inspector 19 June 2019

Issue 1 – Adequacy of the HRA

We agree with the content of ABC.20 in respect of this issue. We are satisfied that the HRA is fit for purpose.

Issue 2 – Adequacy of the Mitigation Measures

We consider that the proposed mitigation measures are proportionate to the level reached in plan preparation. The exact nature of a development is known at the planning application stage. We anticipate that bespoke mitigation measures will be applied at that stage.

In conclusion, we are satisfied that Allerdale Borough Council has met the requirements for HRA.

Kind regards,

■
